

Birney – Tongue River		3 miles north of Birney	
ID# 30-087-0001	Lat: 45.36620	Long: -106.48943	Elevation: 3,153 ft 961 m
MSA:			

In early 2010, this site was established in the Tongue River Valley of south-eastern Montana to determine the current levels of a variety of air pollutants and to track changes in air quality that may occur due to coal bed natural gas development. A variety of surface level meteorological data (wind speed and direction, temperature, etc.) are also monitored at this site.
